EXCLUSIVE

Vomitoxin makes nasty appearance for U.S. farms

A fungus that causes "vomitoxin," which can sicken livestock and humans, has been found in some U.S. corn harvested last year, giving headaches to grain growers already wrestling with massive supplies and low prices.

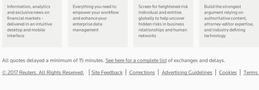
REUTERS VIDEO



02:01

Trump budget cuts could increase lead hazards

The water crisis in Flint, Michigan focused national attention on the dangers of lead exposure, and over the past year Reuters has found more than 3,400 neighborhoods across the United States where childhood lead poisoning rates are at least twice as high as Flint's. Now President Trump is pushing for steep budget cuts that experts say could cause more children, not fewer, to suffer the lifelong effects of lead exposure.
