Trump won't rule out second Yellen term, signaling drift to the mainstream

President Donald Trump signaled on Wednesday he could be moving closer to the mainstream on monetary policy, saying he had not ruled out reappointment of Janet Yellen to a new four-year term as Fed chair as he considers his choices for the central bank.

Exclusive: North Korea oil imports, airline among possible U.S. sanctions targets - sources

Despite sending a naval force to the Korean peninsula, the Trump administration is focusing its North Korea strategy on tougher economic sanctions, possibly including an oil embargo, banning its airline, intercepting cargo ships and punishing Chinese banks doing business with Pyongyang, U.S. officials say.

Trump comments, North Korea fears sink dollar, bond yields, stocks choppy

The U.S. dollar and Treasury yields tumbled on Thursday after President Donald Trump said he preferred the Federal Reserve keep interest rates low as the dollar is getting too strong, and said he would not label China a currency manipulator.
