'We Believed Gen. Flynn Was Compromised,' Sally Yates Testifies

The former acting attorney general told a Senate subcommittee that she repeatedly informed the White House that former national security adviser Michael Flynn was engaging in "problematic" conduct. James Clapper, former director of national intelligence, also testified at the hearing.

GOP Health Bill Leaves Many 'Pre-Existing Condition' Protections Up To States

KBIA

Before the Affordable Care Act, people with pre-existing conditions often couldn't get health insurance — or paid sky-high premiums. The Republican bill passed by the House last week would let states decide.

Giving Up Nuclear Weapons: It's Rare, But It's Happened

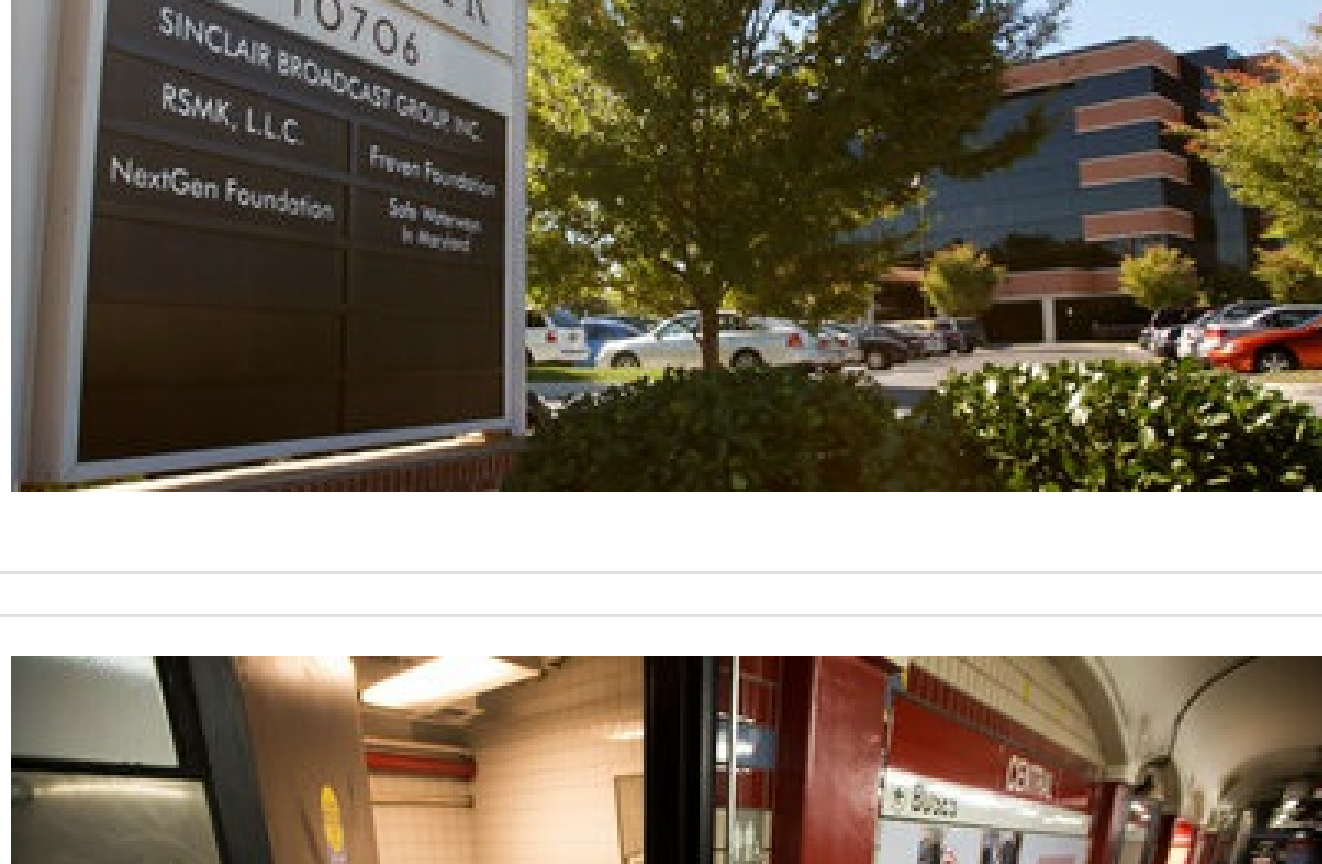

President Trump is calling on North Korea to relinquish its nuclear arsenal. History suggests that's unlikely. Only one country, South Africa, has built its own nukes and then given them up.

Public Restrooms Become Ground Zero In The Opioid Epidemic

WBUR

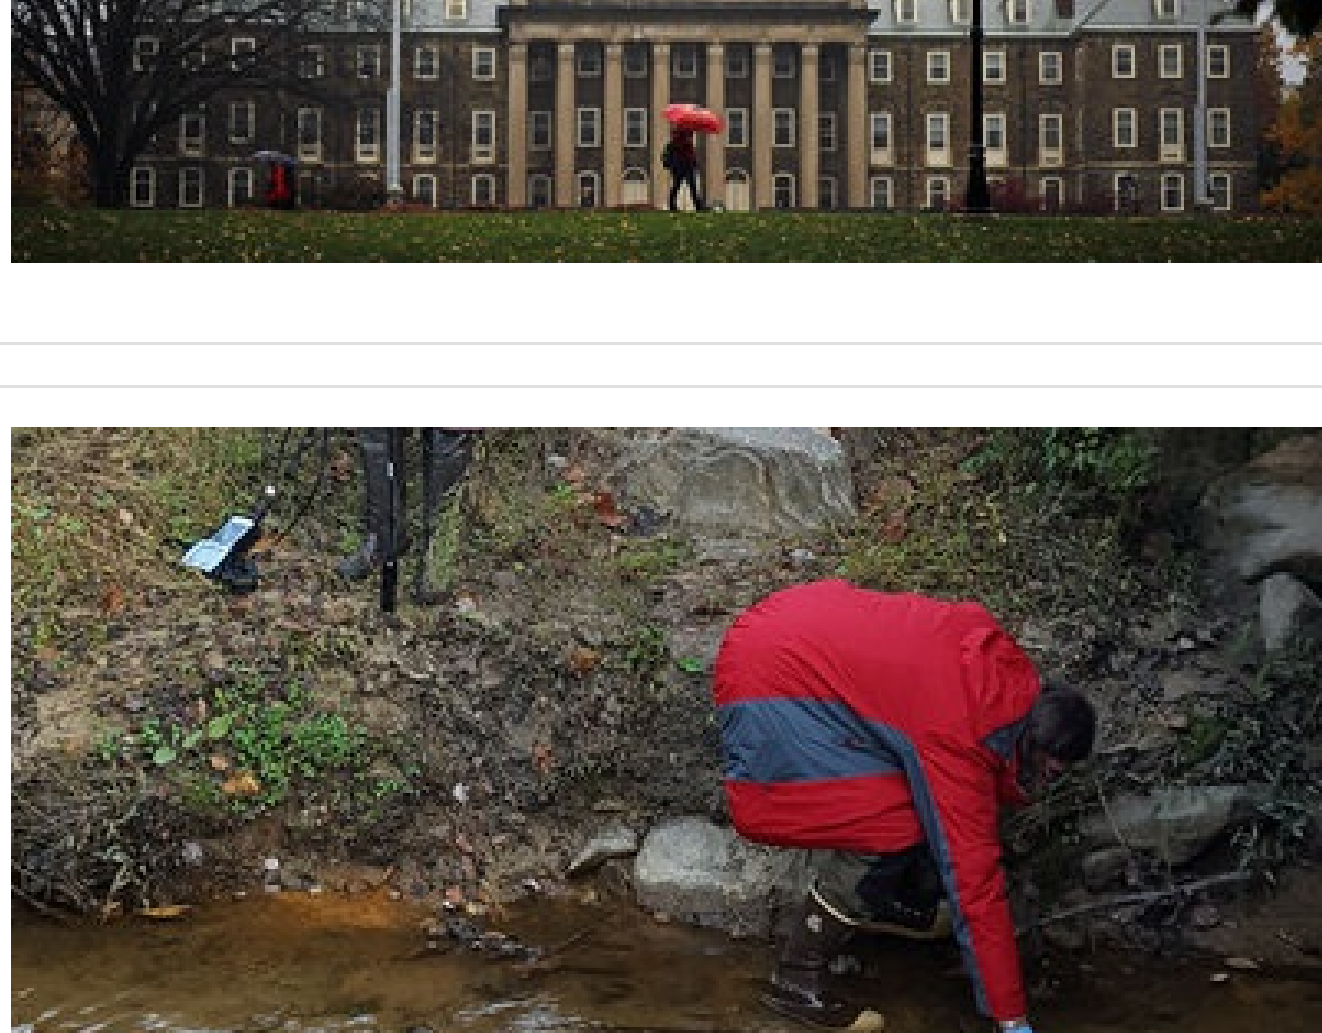

People often turn to public restrooms as a place to get high on opioids. It has led some establishments to close their facilities, while others are training employees to help people who overdose.

Penn State Student's Hazing Death Was No Accident, Grand Jury Says

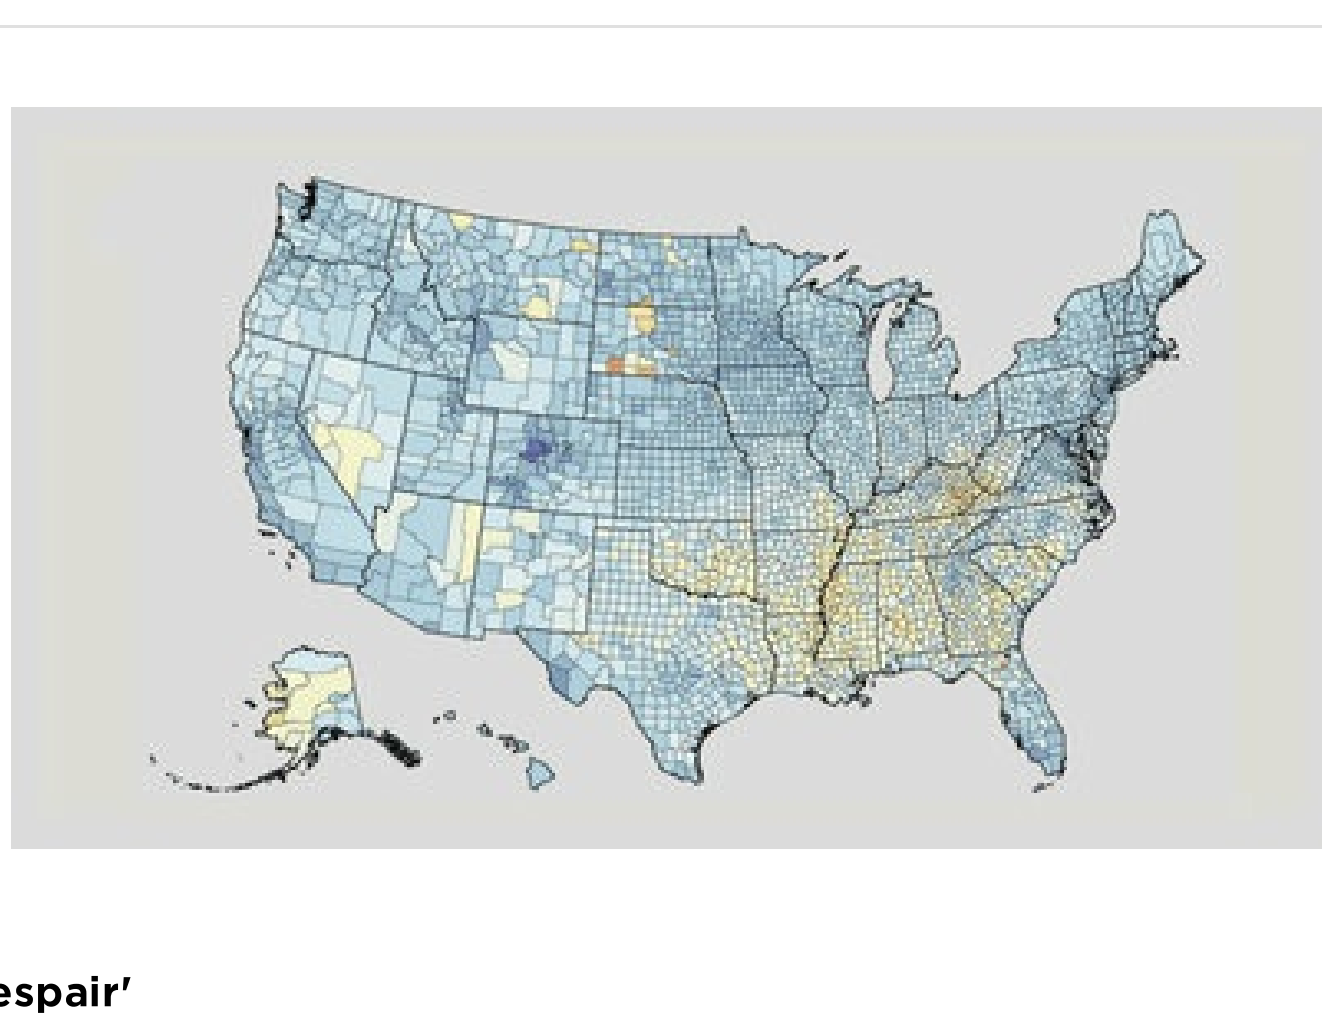

Eight Beta Theta Pi fraternity members face charges of involuntary manslaughter over the death of a new pledge in February. For nearly 12 hours after Timothy Piazza fell, no one called an ambulance.

SCIENCE

Trump's Budget Would Eliminate A Key Funder Of Research On Coastal Pollution

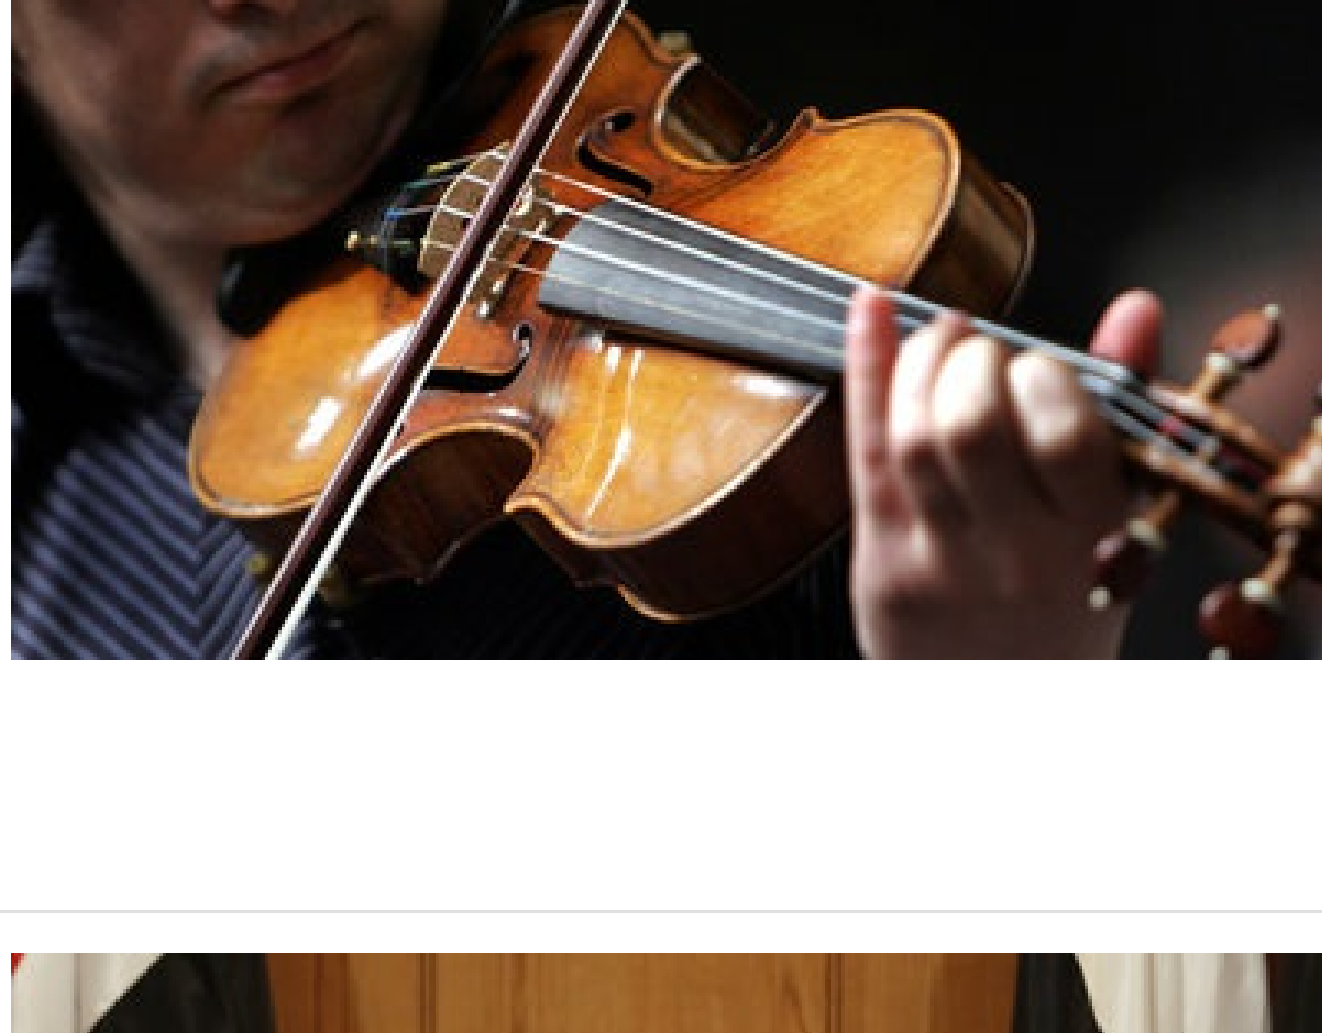

The Sea Grant program, which funds research on coastal environments, is slated by the White House for elimination in 2018. If it goes, a project that finds leaking septic tanks goes down the drain, too.
