

## FBI's Comey misstated key Clinton email evidence, say people close to investigation

During a hearing last week, FBI Director James B. Comey offered new details about what agents found after they realized a laptop belonging to former congressman Anthony Weiner, husband of Huma Abedin, contained thousands of work emails involving Hillary Clinton. People close to the investigation said that Clinton aide Abedin did not forward emails to Weiner regularly and only a small number of forwarded emails were deemed to contain classified information.
